Take Care of Your Bednet

Every 3 months, wash your net with «regular» soap and hang it or lay to dry in the shade.

EARN A MALARIA PROTECTION STICKER

In Four Easy Actions

Carry out these 4 Malaria Prevention Actions:

1 Did your family sleep under a bednet every night during the past month giving priority to pregnant women and children under 5

YES! Date _____

Tuck the edges under your mattress.

Continue to do so throughout the year

2 If a family member has fever do you take them to the health clinic immediately?

YES! Date _____

Fever is a common sign of malaria. Delaying treatment can cause malaria to become worse and risk death.

3 Do you take all the malaria medicine you receive even if you feel better?

YES! Date _____

Do not share your medicine with anyone.

4 Do you assist the indoor spraying team when they come to your community?

YES! Date _____

Do not replaster your walls for at least 6 months.
